FOREST FULCRUM FUND, L.P.
NOTES TO FINANCIAL STATEMENT
DECEMBER 31, 2002

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

a) Organization

Forest Fulcrum Fund, L.P. (the "Partnership") is a broker-dealer in securities registered with the Securities and Exchange Commission and a member of the National Association of Securities Dealers, Inc.

b) Securities Transactions

Transactions in securities are recorded on a trade-date basis. Securities owned or sold, but not yet purchased and contractual commitments arising pursuant to equity swaps and other derivative contracts are valued at market including accrued interest on bonds. All resulting gains and losses are included in partners' capital.

The Partnership's trading activities include short sales of equity securities, as well as the writing of stock options having various expiration dates. Subsequent market fluctuations may require purchasing the securities at prices which may differ from the market value reflected on the statement of financial condition. In many cases, the Partnership limits its risks by holding offsetting security or option positions.

c) Income Taxes

No provision for Federal, state and local taxes has been made since the Partnership is not a taxable entity and the partners are individually liable for the taxes on their share of the Partnership's income or loss.

NOTE 2 - RECEIVABLE FROM AND PAYABLE TO CLEARING BROKERS

The Partnership conducts business with several clearing brokers for its own proprietary accounts pursuant to several clearance agreements. All securities owned, and the receivable from and payable to the clearing brokers reflected on the statement of financial condition, are positions carried by and amounts receivable from or due to one or more of these clearing brokers.

(continued)

NOTE 3 - NET CAPITAL REQUIREMENT

As a registered broker-dealer and member of the National Association of Securities Dealers, Inc., the Partnership is subject to the Uniform Net Capital Rule 15c3-1(the "Rule") of the Securities and Exchange Commission, which requires the maintenance of minimum net capital as defined. The Partnership has elected to use the alternative method permitted by the Rule, which requires the Partnership to maintain \$250,000 of minimum net capital. At December 31, 2002, the Partnership had net capital of \$38,969,788, which was \$38,719,788 in excess of the minimum requirement.

NOTE 4 - RELATED PARTY TRANSACTIONS

The Partnership's fund manager provides investment and management services to the Partnership, and receives a management fee. The fund manager is also entitled to an incentive fee equal to 20% of each partner's share of net income determined on a monthly basis.

The Partnership reimbursed an affiliate of the Partnership for its allocated share of certain brokerage fees paid by the affiliate.

NOTE 5 - FINANCIAL INSTRUMENTS HELD OR ISSUED FOR TRADING PURPOSES

The Partnership trades a variety of derivative financial instruments in order to reduce its exposure to market risk. These derivative financial instruments include equity options, equity index options and equity swaps. Generally, derivative financial instruments represent future commitments to purchase or sell other securities at specific terms, at specific dates or to exchange payment streams.

Derivative financial statements contain varying degrees of off-balance-sheet risk whereby changes in the level or volatility of market values of the underlying securities may result in changes in the value of the financial instruments in excess of the amounts currently reflected in the statement of financial condition (market risk). The Partnership minimizes its exposure to this risk through the use of various hedging strategies and technical analytics. In some cases, the use of derivative financial instruments actually serves to modify or offset market risk associated with other securities, which results in decreasing the Partnership's overall market risk.

NOTE 5 - FINANCIAL INSTRUMENTS HELD OR ISSUED FOR TRADING PURPOSES
(continued)

Derivative financial instruments contain varying degrees of off-balance-sheet risk whereby changes in the level or volatility of market values of the underlying securities may result in changes in the value of the financial instruments in excess of the amounts currently reflected in the statement of financial condition (market risk). The Partnership minimizes its exposure to the risk through the use of derivative financial instruments actually serves to modify or offset market risk associated with other securities, which results in decreasing the Partnership's overall market risk.

In addition to market risk, these derivative financial instruments expose the Partnership to risk that the counter parties will not be able to perform under the terms of the contracts (credit risk). The Partnership utilizes controls that monitor credit risk by assessing creditworthiness of the counter parties and limiting the number of transactions with specific counter parties.

The notional or contract amount of derivative financial instruments, which are not included in the statement of financial condition, represent the extent of the Partnership's involvement in the particular class of financial instrument and does not reflect the Partnership's risk of loss due to market risk or counter party nonperformance. The Partnership's exposure to credit risk associated with counter party nonperformance is limited to amounts included in the Partnership's other receivables on the statement of financial condition.

The amounts disclosed below represent the year-end notional amounts and market values of derivative financial instruments held or issued for trading purposes and the average values during the year of those instruments.

	Notional Amount	Market value at December 31, 2002	Average Market Value 2002

The Partnership has decided to present a schedule of investments by industry. The investments consist almost entirely of convertible bonds and preferred stocks.

Included in the other receivables and other payables on the statement of financial condition are \$2,768,828 of receivables from non-broker-dealers related to the Partnership's equity swap transactions. These receivables and payables are governed by separate swap agreements with various arrangements and conditions regarding settlement of the receivables and payables.

NOTE 8 - SUBSEQUENT TRANSACTIONS

In January and February 2003, partners withdrew approximately \$10,278,738 from and contributed approximately \$8,575,458 to the Partnership.
